# Home Learning Instructions

This page outlines exactly what you need to do to access home learning provision for your child.

First, follow this link to take you directly to our **Home Learning webpage:**
http://www.applegarth.n-yorks.sch.uk/our-curriculum/homelearning/

On this page, you will find **suggested daily timetables,** links to **home learning for the core subjects** and **foundation subjects**.

WONDE

We now have **WONDE** to make logging into the multiple online learning platforms much easier! Your child can now sign with a single log in using **WONDE**. Once your child has used their **WONDE** log in, they will see the options below; they simply select the relevant tile to access the platform/website.

Pobble	Times Tables Rock Stars	Purple Mash	The Spelling Shed	Reading Eggs	SPaG

Your child's teacher will set assessments, tasks and learning which matches what is being delivered in class and our systems will send information back to the teacher*. Using **WONDE** means your child does not have to log in and out and remember multiple usernames and passwords.

To gain access to **WONDE,** you will first need to download the **Chrome extension** (it's free and safe) by copying and pasting this link into the URL space on a Chrome browser: https://chrome.google.com/webstore/search/wonde?hl=en-GB To sign into **WONDE,** follow this link: https://edu.wonde.com/login/
You will be sent your WONDE log in directly.

Seesaw, Developing Experts and SATs Companion (Y6) are the only platforms which still require a separate log in. Writing assignments will be shared with you via Seesaw.
